Mike, a member of the firm's Financial Institutions and Business practices, focuses on structured finance and corporate securities/mergers and acquisitions. He is an experienced securitization/structured finance lawyer who has concentrated in representing sponsors and underwriters in mortgage-backed securitizations (including subprime, Alt A and reverse mortgage loans and small balance commercial loans).

Mike has extensive experience in advising sponsors/servicers as to their obligations under securitization documents to trustees, investors and pool and certificate insurers relating to repurchase demands based on alleged breaches of loan level representations and warranties, requests for access to loan level data and disagreements relating to audit rights and repurchase demands. This experience combined with the four month comprehensive review of the default management practices of a servicer client that he led has given Mike a unique perspective on issues arising during the loan origination process and servicing issues related to subprime and nonperforming mortgage loans. His experience also includes whole loan purchases and sales, agency transactions, purchases and sales of servicing rights and other secondary market mortgage transactions.
